

History and Mission

Liceo Campoverde is a private bilingual school, located in Quito, Ecuador. It is an educational project conceived by qualified professionals who designed it with the following objective in mind: "To form people capable of communicating their emotions, able to make their own decisions supported by the acquired daily knowledge and who, in turn, will be able to be the protagonists in the construction of a better society." The school was officially approved by the Ecuadorian Ministry of Education, and started functioning on September, 2007. Through these years, we have become a prestigious institution known in the community by permanently applying didactic innovations in the formation of individuals who will transcend in the personal, social, environmental and cultural aspects of their community.

Our mission is to be a bilingual institution dedicated to provide students with a solid academic formation through project based learning, scientific rigor, research and the development of creativity and critical thinking; based on individual strengths, character and emotions developed through effective communication, which will facilitate the leading role of the future graduates in the sustained social development of the community.

Curriculum Guidelines

Our curriculum has different building blocks that all together provide our students with a comprehensive formation:

- Core subjects according to the Ecuadorian Ministry of Education. The seven major academic areas are:
 - Language and Communication
 - Mathematics
 - Experimental Sciences
 - Social Science
 - Foreign Languages (English and French)
 - Art and Music
 - Physical Education
- Bilingual diploma and AP Program
- Character strengths program: Innovative discipline and academic support systems
- Community service projects
- Academic trips to different zones of our country in the Amazon basic and Andean highlands.
